SCRIPTS (PDMP or DHEC REPORTS) TIPS AND TRICKS

http://southcarolina.pmpaware.net

TO CREATE A NEW PATIENT REQUEST

- ✦ Click <MENU>, then <PATIENT REQUEST>
- ✦ Input required fields: FIRST NAME, LAST NAME, DOB (mm/dd/yyyy)

WANT TO SEARCH IN OTHER STATES?

Check the box(es) next to the desired state(s) under 'PMP InterConnect Search'

Only delegates with proper credentials (i.e., LPN, RN) are authorized to search in select states (e.g., Georgia)

PMP InterConnect Search
To search in other states as well as your home state for patient information, select the states you wish to include in your search.

A	☐ Alabama	☐ Alaska	☐ Arizona	☐ Arkansas
F	☑ Florida			
G	☑ Georgia			
M	☐ Maine	☐ Maryland RxGov	☐ Massachusetts	☑ Military Health System*
N	☐ Nevada	☐ New Hampshire	☐ New Jersey	☑ North Carolina

* Controlled medications dispensed at Department of Defense (DOD) facilities; Veterans Administration facilities report to individual state PDMPs

CAN'T FIND PATIENT OR WANT TO EXPAND SEARCH?

Check required fields for errors. If there is no error:

- ✦ Enter the patient zip code (identifies most patients with hyphenated names or names that contain a suffix [e.g., Jr., Sr.])
  OR
  Use partial spelling option (check partial spelling box and enter first 3 letters of first and/or last name)
- ✦ If more than one first or last name, run multiple patient requests (e.g., one for Smith-Doe and one for Doe-Smith)

MULTIPLE PATIENTS FOUND?

If multiple patients found that match the search criteria:

- ✦ Be sure to move/scroll sidebar, if present, to view all patient groups
- ✦ To complete patient request, check the boxes next to the patient group(s) that may represent your patient, then click <RUN REPORT>
  - • *Be sure to ONLY SELECT the patient records of the patient you intended to search*
- ✦ To modify search criteria before completing the patient request, click <REFINE SEARCH CRITERIA>

TO SEARCH FOR MULTIPLE PATIENTS AT ONE TIME

- ✦ Click <MENU>, then <BULK PATIENT SEARCH>
- ✦ Input required fields: FIRST NAME, LAST NAME, DOB (mm/dd/yyyy) and click <ADD>, then repeat
- ✦ Input a Group Name (e.g., date), then click <SEARCH>
- ✦ Scroll to the top and click <BULK PATIENT HISTORY>
- ✦ Select Group Name
- ✦ Click desired patient row, then click <VIEW> to view the report; repeat for each patient you wish to view

TO RUN AN UPDATED PATIENT REQUEST (i.e., rerun a previous patient request for today's date)

- ✦ Click <MENU>, then <REQUESTS HISTORY>
- ✦ Click <ADVANCED OPTIONS>, then enter desired field (e.g., last name)
- ✦ Click <SEARCH>, then select patient of interest by clicking anywhere on row and click <REFRESH>
- ✦ Check 'I agree to the terms of the acknowledgment', then click <SEARCH>

Note: Your request history is maintained for up to 6 years

TO VIEW PRESCRIPTIONS YOU WROTE DURING A SPECIFIC TIME PERIOD

- ✦ Click <MENU>, then <MyRx>
- ✦ Enter chosen date range for the search
- ✦ Check box(es) next to DEA numbers you wish to search
- ✦ Click <SEARCH>

Note: For best results, do not enter a drug name and choose a date range no longer than one month

HOW TO PRINT A NARX REPORT

NEW QUICK PRINT OPTION FOR CONDENSED NARX REPORT

When viewing a patient's Narx report, click <PDF Report> to download and generate the new condensed printable version that excludes the communications tab, charts, and graphs.

✦ Be sure to print in the default portrait mode

Report Criteria

First Name: Test
Last Name: Patient
DOB: 01/01/1900

Linked Records

Name: Test Patient **DOB:** 01/01/1900 **ID:** 1 **Gender:** Unknown **Address:** 555 Fake Dr Columbia, SC 29230	**Name:** Test Patient **DOB:** 01/01/1900 **ID:** 2 **Gender:** Male **Address:** 8918 Pleasant St Charleston, SC 29406	**Name:** Test Patient **DOB:** 01/01/1900 **ID:** 3 **Gender:** Male **Address:** 9901 Linn Station Road Ste 400 Louisville, KY 40223

If more than one linked record appears, review each record to ensure it is the patient you intended to search

NarxCare®

Report generated on 02/10/2022. Report Date Range: 02/10/2020 – 02/10/2022

Messages

The Messages feature allows you to send a private message to another prescriber that is listed on the patient record

[01/02/2022] – from Dr. Les Overdose (Internal Medicine) to Jane Doe

I wanted to let you know that family expressed concern about Test Patient buying additional opioid on the street because she is running out.

Actions ▾

[02/02/2022] – from Dr. R.X. Safer (Family Medicine) to Jane Doe

Test Patient asked for more opioids again this month.

Care Notes Add Note

Care Notes feature allows you to flag additional clinically relevant information in the patient record that everyone can see

To add note: Click 'Add Note', and select one of the predefined Care Notes. Then select desired expiration from drop-down menu (default is 'never expire')

Care Notes are read-only for delegates

02/02/2022] – from Dr. Les Overdose (Internal Medicine)

I have prescribed naloxone for this patient.

Actions ▾

[02/02/2022] – from Dr. Les Overdose (Internal Medicine)

Patient has pain agreement at our practice.

Actions ▾

[01/02/2022] – from Dr. O.D. Nomore (Family Practice)

Patient has reported lost or stolen prescription.

Actions ▾

[02/02/2022] – from Dr. Les Overdose (Internal Medicine)

Patient filling controlled substances from multiple providers.

Click 'Actions' to edit or delete Care Note that you added to the record

🗑 Delete Note

✏ Edit Note

[02/02/2022] – from Dr. Luke Closely (Family Medicine)

Patient has been clustered with another patient in the past. Please check patient demographics.

Actions ▾

[02/02/2022] – from Dr. Go Slow (Family Practice)

The patient is on an opioid taper.

Important Disclaimer: It is your responsibility to maintain patient privacy and confidentiality with any patient report

Privacy Considerations: Refer requests from patients and others for copies of patient SCRIPTS Narx Reports directly to SCRIPTS team at 803-896-0688.

Narx Scores are calculated based on amount of medication dispensed, number of prescribers, number of pharmacies, and overlapping prescriptions

Overdose Risk Score (ORS) is intended to be a predictive score for unintentional overdose death

NEW CLINICAL ALERT FEATURE

Narx Scores

Narcotic	Sedative	Stimulant
300	**180**	**000**

Overdose Risk Score

520
(Range 000-999)

State Indicators (5)

- ❗ Daily Active MME ≥ 90
- ❗ Overlapping Opioid & Benzodiazepine
- ❗ ≥ 5 Prescribers in 90 days
- ❗ ≥ 5 Dispensers in 90 days
- ❗ Naloxone Administered

The last number in a Narx Score indicates the number of active prescriptions in that class

State Indicator Clinical Alerts include:
- ≥ 90 MME/day
- Any opioid or benzodiadepine dispensed within the same overlapping time period
- ≥ 5 prescribers or ≥ 5 pharmacies (dispensers) within a 90 day period
- Naloxone administration reported by EMS, first responders, or major healthcare facilities in South Carolina (patient must have controlled substance filled within searched time frame [default 2 years] for alert to populate)

RX Summary Expanded
